TITLE OF INVENTION: BROKERING OF INFORMATION ACQUISITION BY DEVICES IN A WIRELESS NETWORK

APPLN, TYPE	SMALL ENTITY	ISSUE FEE DUE	PUBLICATION FEE DUE	PREV. PAID ISSUE FEE	TOTAL FEE(S) DUE	DATE DUE
nonprovisional	NO	\$1510	\$300	\$0	\$1810	06/16/2010

THE APPLICATION IDENTIFIED ABOVE HAS BEEN EXAMINED AND IS ALLOWED FOR ISSUANCE AS A PATENT. PROSECUTION NOT THE MERITS IS CLOSED. THIS NOTICE OF ALLOWANCE IS NOT AGAIN OF PATENT RIGHTS. THIS APPLICATION IS SUBJECT TO WITHDRAWAL FROM ISSUE AT THE INITIATIVE OF THE OFFICE OR UPON PETITION BY THE APPLICANT. SEE 37 CFR 1,313 AND MPEP 1308.

THE ISSUE FEE AND PUBLICATION FEE (IF REQUIRED) MUST BE PAID WITHIN THREE MONTHS FROM THE MAILING DATE OF THIS NOTICE OR THIS APPLICATION SHALL BE REGARDED AS ABANDONED. THIS STATUTORY PERIOD CANNOT BE EXTENDED. SEE 35 U.S.C. 151. THE ISSUE FEE DUE INDICATED ABOVE DOES NOT REFLECT A CREDIT FOR ANY PREVIOUSLY PAID ISSUE FEE IN THIS APPLICATION. IF AN ISSUE FEE HAS PREVIOUSLY BEEN PAID IN THIS APPLICATION (AS SHOWN ABOVE), THE RETURN OF PART B OF THIS FORM WILL BE CONSIDERED A REQUEST TO REAPPLY THE PREVIOUSLY PAID ISSUE FEE TOWARD THE ISSUE FEE NOW DUE.

HOW TO REPLY TO THIS NOTICE:

I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

B. If the status above is to be removed, check box 5b on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above, or

If the SMALL ENTITY is shown as NO:

A. Pay TOTAL FEE(S) DUE shown above, or

B. If applicant claimed SMALL ENTITY status before, or is now claiming SMALL ENTITY status, check box 5a on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and 1/2 the ISSUE FEE shown above.

II. PART B - FEE(S) TRANSMITTAL, or its equivalent, must be completed and returned to the United States Patent and Trademark Office (USPTO) with your ISSUE FEE and PUBLICATION FEE (if required). If you are charging the fee(s) to your deposit account, section "4b" of Part B - Fee(s) Transmittal should be completed and an extra copy of the form should be submitted. If an equivalent of Part B is filed, a request to reapply a previously paid issue fee must be clearly made, and delays in processing may occur due to the difficulty in recognizing the paper as an equivalent of Part B.

III. All communications regarding this application must give the application number. Please direct all communications prior to issuance to Mail Stop ISSUE FEE unless advised to the contrary.

IMPORTANT REMINDER: Utility patents issuing on applications filed on or after Dec. 12, 1980 may require payment of maintenance fees. It is patentee's responsibility to ensure timely payment of maintenance fees when due.

PART B - FEE(S) TRANSMITTAL

Complete and send this form, together with applicable fee(s), to: Mail Mail Stop ISSUE FEE Commissioner for Patents P.O. Box 1450 Alexandria, Virginia 22313-1450

or Fax (571)-273-2885

Determination of Patent Term Adjustment under 35 U.S.C. 154 (b)

(application filed on or after May 29, 2000)

The Patent Term Adjustment to date is 1066 day(s). If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the Patent Term Adjustment will be 1066 day(s).

If a Continued Prosecution Application (CPA) was filed in the above-identified application, the filing date that determines Patent Term Adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) WEB site (http://pair.uspto.gov).

Any questions regarding the Patent Term Extension or Adjustment determination should be directed to the Office of Patent Legal Administration at (571)-272-7702. Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at 1-(888)-786-0101 or (571)-272-4200.

Notice of Allowability

Application No.	Applicant(s)

Examiner	Art Unit	
MD S ELAHEE	2614	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address-All claims being allowable, PFOSECUTION ON THE MERITS IS (OR REMAINS) CLOSED in this application. If not included
herewith (or previously mailed), a Notice of Allowance (PTOL-85) or other appropriate communication will be mailed in due course. THIS
NOTICE OF ALLOWABILITY IS NOT A GRANT OF PATENT RIGHTS. This application is subject to withdrawal from issue at the initiative
of the Office or upon petition by the applicant. See 37 CFR 1.313 and MPEP 1308.

1.

This communication is responsive to 12/16/2009.

- The allowed claim(s) is/are 1-5,7-11,14,20,22,25-37,39-43 (Rearranged claims are 1-31).
- Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
 - a) All b) Some* c) None of the:
 - 1.

 Certified copies of the priority documents have been received.
 - Certified copies of the priority documents have been received in Application No.
 - Copies of the certified copies of the priority documents have been received in this national stage application from the International Bureau (PCT Rule 17.2(a)).
 - * Certified copies not received: ____

Applicant has THREE MONTHS FROM THE "MAILING DATE" of this communication to file a reply complying with the requirements noted below. Failure to timely comply will result in ABANDONMENT of this application.
THIS THREE-MONTH PERIOD IS NOT EXTENDABLE.

- A SUBSTITUTE OATH OR DECLARATION must be submitted. Note the attached EXAMINER'S AMENDMENT or NOTICE OF INFORMAL PATENT APPLICATION (PTO-152) which gives reason(s) why the oath or declaration is deficient.
- 5. CORRECTED DRAWINGS (as "replacement sheets") must be submitted.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or
additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR
1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the
payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Dan C. Hu on 03/02/2010.

Amendment was entered as following:

(Currently Amended) A method of advertising comprising:

broadcasting_receiving, at a consumer telecommunications device, a first part of an advertisement broadcast via a short range link from an advertiser telecommunications device;

receiving a second part of the broadcast—advertisement on a at the consumer telecommunications device, wherein the second part of the advertisement is received from the advertiser device by the consumer device after the consumer device has screened the first part of the advertisement;

replying to the advertisement by sending a reply message including message data from the consumer telecommunications device to an advertisement broker device;

changing the message data of the reply message at the broker device to derive a changed reply message that includes at least a substantial portion of the reply message; and

communicating the changed reply message from the broker device to the advertiser telecommunications device.

 (Currently Amended) The method according to claim 1 in which the advertisement is received at broadcast to a man portable consumer device.

Art Unit: 2614

(Currently Amended) The method according to claim 1[[2]] in which the
consumer telecommunications device is a hand-holdable portable and pocketable device.

4. (Previously Presented) The method according to claim 1 in which the

advertisement is broadcast from a man portable advertiser device.

(Previously Presented) The method according to claim 4 in which the advertiser

device is a hand-holdable portable device.

(Cancelled)

7. (Currently Amended) The method according to claim 1 in which the advertiser

telecommunications device does not include its own telecommunications address in the its

broadcast-advertisement.

8. (Currently Amended) The method according to claim 7 further including the step

of including a_the_telecommunications address of the broker device in the advertisement

broadcast by the advertiser telecommunications device.

9. (Currently Amended) The method according to claim 1 further including the

steps of including one or more advertisement classification codes in the advertisement broadcast by the advertiser telecommunications device, and comparing the one or more advertising

by the advertiser <u>telecommunications</u> device, and comparing the one or more advertising classification codes with allowable advertisement codes in an advertisement screening operation

by the consumer telecommunications device.

10. (Currently Amended) The method according to claim 9 in which the consumer

telecommunications device stores or brings to the attention of a user only those advertisements

which are passed by the screening operation that the consumer telecommunications device

Art Unit: 2614

performs on the broadcast advertisements that it—the consumer telecommunications device receives.

 (Currently Amended) The method according to claim 1 in which the consumer telecommunications device replies to an advertisement via long range telecommunications to the advertiser telecommunications device.

(Cancelled)

13. (Cancelled)

14. (Currently Amended) The method according to claim 1 comprising using a mobile telephone, personal digital assistant, or other small portable electronic devices for both the advertiser telecommunications device and the consumer telecommunications device, the advertiser and consumer telecommunications devices both having both piconet short range and long range telecommunication capabilities.

15-19. (Cancelled)

20. (Currently Amended) A server adapted to act as an advertisement broker device contactable via wireless telecommunications with a consumer device, the server including an arrangement adapted to (a) receive one of (i) an advertisement message from an advertiser device or (ii) a reply message to an advertisement from the consumer device, and (b) forward the received message to a remote telecommunications device; the arrangement being adapted to modify the received message so as to ensure, at least initially, that no telecommunications address of an advertiser or replier to [[an]]the advertisement is passed with the modified message that is forwarded by the server, wherein the advertisement has a first part and a second part, the second part being sent from the advertiser device to the consumer device after the consumer device has screened the first part.

Art Unit: 2614

(Cancelled)

22. (Currently Amended) A network comprising:

an advertiser device comprising a first telecommunications device having both a short range transmitter and receiver unit, and a long range telecommunications transmitter and receiver, a memory, and a eontrol processor, the memory including an advertisement:

a consumer device comprising a second telecommunications device, having: (a) a short range, piconet transmitter and receiver unit, (b) a long range telecommunications transmitter and receiver unit, (c) a second memory, and (d) a control processor, the second memory or the control processor of the consumer device having an advertisement receiver which, in use, is capable of receiving and storing an-the advertisement, wherein the advertisement has a first part and a second part, and wherein the advertisement receiver is configured to receive the second part of the advertisement from the advertiser device after the consumer device has screened the first part:

and an advertisement broker device contactable via wireless telecommunications with both the advertiser and consumer devices, the broker device being adapted to selectively (a) pass advertiser details to the consumer device in response to triggering, (b) pass consumer details to the advertiser device in response to triggering, and (c) block passage of at least one of (i) advertiser details to the consumer device and (ii) consumer details to the advertiser device.

23-24. (Cancelled)

- 25. (Previously Presented) The network according to claim 22 in which the broker device is connectable with the advertiser device and the consumer device via long range wireless telecommunications.
- 26. (Previously Presented) The network of claim 22 wherein each the telecommunications devices includes a hybrid mobile telephone.
- 27. (Previously Presented) The method according to claim 1, wherein the change to the reply message includes augmenting the reply message.

Art Unit: 2614

28. (Currently Amended) The method according to claim 1, wherein the change to the reply message includes modifying original text or of the reply message.

29. (Currently Amended) The network according to claim 28, wherein the original

text is modified by removing an identifier of the a consumer.

30. (Currently Amended) The method according to claim 1, wherein the broker

device is interposed in a telecommunications link between the advertiser device and the

consumer telecommunications device.

31. (Currently Amended) The method according to claim 1, wherein the reply

message communicated from the broker device to the advertiser telecommunications device is changed by the broker device changing the message data sent by the consumer

telecommunications device by augmenting the message data in the reply message sent by the

consumer telecommunications device to the broker device.

32. (Currently Amended) The server of claim 20, wherein in at least one of the advertisement message or the reply message includes a telecommunications address and the

server is adapted to remove the telecommunication address from at least one of the advertisement

data and the reply message to ensure that no telecommunication address of the advertiser or

replier is passed with the message transmitted forwarded by the server.

33. (Currently Amended) The method of claim 1, further including transmitting

 $\underline{receiving}\ additional\ advertisement\ information\ from\ the\ advertiser\ \underline{telecommunications}\ device\ \underline{to}$

 \underline{by} the consumer $\underline{telecommunications}$ device in response to a request for additional information

by the consumer <u>telecommunications</u> device to the advertisement.

34. (Currently Amended) The network of claim 22, wherein the advertisement broker

device includes a server adapted to receive one of (i) an advertisement message or (ii) a reply

Application/Control Number: 09/843,145

Art Unit: 2614

message to an advertisement and to forward the received message to a remote telecommunications device; the server being adapted to modify the received message so as to ensure, at least initially, that no telecommunications address of an advertiser or replier to an advertisement is passed with the message that is transmitted-forwarded by the server.

Page 7

- 35. (Previously Presented) The method according to claim 1 wherein the broker device changes the message data by blocking passage of at least one of (i) advertiser details to the consumer device and (ii) consumer details to the advertiser device.
- 36. (Currently Amended) The method according to claim 35 wherein the broker device changes the message data by blocking passage of the address of the advertiser telecommunications device to the consumer telecommunications device.
- 37. (Currently Amended) The network of claim 22 wherein the broker device is arranged, during passing of details of the advertiser to the consumer device, to block passage of the address of the advertiser telecommunications devices to the consumer telecommunications device.

(Cancelled)

39. (Currently Amended) The method according to claim 1, wherein the reply message communicated from the broker device to the advertiser <u>telecommunications</u> device is changed by the broker device changing the message data sent by the consumer <u>telecommunications</u> device by deleting some of the message data in the reply message sent by the consumer <u>telecommunications</u> device to the broker device.

40. (Currently Amended) The A network comprising:

an advertiser device comprising a first telecommunications device having both a short range transmitter and receiver unit, and a long range telecommunications transmitter and receiver, a memory, and a eontrol processor, the memory including an advertisement:

Art Unit: 2614

a consumer device comprising a second telecommunications device, having (a) a short range, piconet transmitter and receiver unit, (b) a long range telecommunications transmitter and receiver unit, (c) a second memory, and (d) a control processor, the second memory or the control processor of the consumer device having an advertisement receiver which, in use, is capable of receiving and storing an-the advertisement, wherein the advertisement has a first part and a second part, and wherein the advertisement receiver is configured to receive the second part of the advertisement from the advertiser device after the consumer device has screened the first part; and

an advertisement broker device contactable via wireless telecommunications with both the advertiser and consumer devices, the broker device being adapted to selectively (a) pass consumer details to the advertiser device in response to triggering and (b) block passage of at least one of (i) advertiser details to the consumer device and (ii) consumer details to the advertiser device.

- (Previously Presented) The network of claim 40 wherein the broker device is also adapted to selectively pass advertiser details to the consumer device.
- 42. (Previously Presented) The network of claim 40 wherein the advertisement broker device is adapted to block passage of both (i) advertiser details to the consumer device and (ii) consumer details to the advertiser device.
- 43. (Previously Presented) The network of claim 22 wherein the advertisement broker device is adapted to block passage of both (i) advertiser details to the consumer device and (ii) consumer details to the advertiser device.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

Claims 1, 7-11, 13-27, 45 and 46 are allowed.

Art Unit: 2614

Regarding claims 1 and 18, the reference Rautila and Examiner's newly discovered reference LaPorta, after having all the limitations, fail to teach that the second part of the advertisement is received from the advertiser device by the consumer device after the consumer device has screened the first part of the advertisement.

There is no suggestion in Rautila and LaPorta to combine with any other references to teach the claimed limitation.

Any comments considered necessary by applicant must be submitted no later then the payment the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

 Any inquiry concerning this communication or earlier communications from the examiner should be directed to MD S. ELAHEE whose telephone number is (571)272-7536.
 The examiner can normally be reached on MON-FRI.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, FAN TSANG can be reached on (571)272-7547. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
